Bug	CUR-3268	PROD ISSUE: Google Classroom Assignments are published in a different order than on than the playlist	
			<p>Scenario:</p> <p>* When using deeplinking in an LMS such as Canvas, when a user moves to the 'search' tab, an 'unauthorized' error appears.</p> <p>Fix:</p> <p><a href="https://dev.currikistudio.org/api/api/v1/users/organizations">https://dev.currikistudio.org/api/api/v1/users/organizations</a><a href="https://dev.currikistudio.org/api/api/v1/users/organizations">https://dev.currikistudio.org/api/api/v1/users/organizations</a>] is causing error, when we launch deeplinking.</p>
Bug	CUR-3268	When opening 'search' tab of 'Deeplinking search', an 'Unauthorized' error appears	Attached are a snapshot and a video.
Bug	CUR-3248	Unable to preview Sample Projects	In <a href="http://studio.curriki.org/http://studio.curriki.org/jsmart-link">http://studio.curriki.org/http://studio.curriki.org/jsmart-link</a> ] Go to sample projects National Parks and click preview. The system hangs
			As reported by Rita from Vivensity: Run a search on curriki studio and try to publish a project to google classroom.
			It shows the modal, goes through google auth, lets you select/create the class and then nothing happens.
Bug	CUR-3230	Search Publish: Cant publish to google classroom from curriki studio search	No network requests are firing.
Bug	CUR-3185	Free Response interaction issue - Standard Interactive video	Publishing from the user's personal projects instead of the search does work fine.
			* Currently, the Free Response question type within an Interactive Video does not allow for end user interaction. On multiple accounts/machines, we've created a Poster version of this interaction, and when using Preview, the text box cannot be used. In both cases, we were using YouTube as a host for the videos.
			When an H5P is embedded without an iframe, its xAPI statements are not caught by the listener in the frontend.
Bug	CUR-3181	Missing xAPI statements from non-iframe H5Ps	Need to adapt the listener to take these cases into account.
			Reported by [-accountid:61252fbc3fe26c006943b0e0] on H5P Collage activity
			The shared link for playlist does not work correctly. It will not work unless the user is logged into curriki studio; otherwise, you get an error
Bug	CUR-2968	Shared Link for Playlist does not work	 width=1262,height=736!
			Copying from VIV-233
Bug	CUR-2137	The Summary page is showing inconsistent results	We find that when student submit their report after completing the interactive book, sporadically, only some of the responses are displayed.
			Antonio, he confirmed that the responses are stored in the database.
			The duration of the answer shows 00:00 although the user spent a lot of time completing the question
